Reports

Student Report - Aiyanna Uter shared update.

It is still different, but she thinks overall we are doing well. She asked about lunches, maybe some being shorter or feeling more crowded. Mr. Wilson shared since lunches are free this year, that has increased our students eating and causing longer lines. Admin is hoping that the Food Service department will be able to open additional lines as they hire more staff. Mrs. Logan shared that we monitor the lines and give passes to class when needed.

Athletics Report - Karena McCoy shared update.

We are happy that we are having athletics. Most summer camps were sold out so that was a big fundraiser for most all teams. Please thank the volunteers for their service running concessions. The school store has already sold over \$5000 worth of CRHS gear. We are selling gear at some games as well as the online store. We have several new sponsors. Booster Club sales as well as the All Sports passes have increased in sales. We are introducing 2 athletic scholarships and will post those for a Male Senior Athlete and Female

Senior Athlete. Shannon Lawrence asked if there was a way for older folks or people without smart phones to purchase any other way besides the Go Fan app.

Band Report - Rick Weslock shared update.

Summer practice began in July and they've been practicing for their show - In Suspense. Band Exhibition show @NFHS this Saturday. Football games have been great for marching band to show off their performance. He thanked Mr. Wilson for hiring 2 wonderful new Band teachers - Butler and Shives. Band Mattress sale is coming next week as their big fundraiser. Additional fundraisers through the year - Spirit Night tomorrow night at Hobo's, Blood Drives are every three months, Corporate Sponsors, etc. Band provided a breakfast for the teachers prior to school to show support.

Parent Ambassadors Report - Hannah Stover shared update.

They provided teacher lunches for one of the school work days prior to school. They are currently working on planning additional ways to encourage and support the faculty and staff.

Administrative Update

Covid Protocols - Mr. Wilson shared an update. A little more details and updates have been pushed out from FMSD. Social distancing, mask versus no masks, and closeness in proximity have been specified as part of the cohorts and close contacts.
